

- 1- The Output Is 10
- 2- The Output Is error --> return this.name
- 3- The Output Is error --> let i;
- 4- The Output Is [ 0 , 1 , 2 , 3 , 4 ]
- 5- The Output Is foo=1 bar=2 baz=[ 3 , 4 , 5 ]

1- Solve

```
function addValues(...values) {  
  return values.reduce((sum, value) => sum + value);  
}
```

```
const result = addValues(1, 2, 3, 4);  
console.log(result); // Output: 10
```
